2. Instant claim 1 has been amended by Applicant's current amendment.
3. Instant claims 8-9 and 11 are cancelled by Applicant's current amendment, and Applicant has previously cancelled instant claims 2-3 and 10.
4. In light of Applicant's amendment, the rejection of instant claim 1 under 35 U.S.C. 112, 2nd paragraph has been withdrawn.

Terminal Disclaimer

The terminal disclaimer filed on 16 December 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 7,388,627 (Hoshino et al) has been reviewed and is accepted. The terminal disclaimer has been recorded.

The terminal disclaimer filed on 10 September 2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the

Art Unit: 1772

expiration date of U.S. Patent 7,391,546 (H. Hoshino et al.) has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1, 4-7, and 12-15 are allowed.

The following is an examiner's statement of reasons for allowance:

U.S. Patent 7,388,627 (Hoshino et al); U.S. Patent 7,391,546 (H. Hoshino et al.); and the claims of the instant application recite similar forms of a discrimination medium comprising multiple layers and multiple films that allows for a light reflected by the medium to be reflected as two different polarized light reflections when viewed with an optical filter. U.S. Patent 7,201,821 (Hoshino* et al.) recites a discrimination medium similar to the claimed invention of the instant claims; however, the prior art employs multiple optical filters to view different polarized light reflections. Furthermore, the claims of the instant application recite a discrimination medium that is similar to the medium of European Patent 1,028,359 A1 (Shiozawa et al.); however, the structure of the multiple layers and multiple films of the instant application allows for a light reflected by a medium to be reflected simultaneously as two different polarized light reflections, while the medium of Shiozawa et al. primarily reflects a single polarized light reflection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1772

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
